

Procedure for Notification of Environmental Incidents

Company: EarthPower Technologies Sydney Pty Ltd
Address: 35 Grand Avenue, Camellia, NSW 2142
Environment Protection Licence: 11797

Effective 6 February 2012 the occupier of premises, the employer or any person carrying on the activity which causes a pollution incident is required to immediately notify each relevant authority (identified below) when material harm to the environment is caused or threatened.

Call 000 if the incident presents an immediate threat to human health or property. Fire and Rescue NSW, the NSW Police and the NSW Ambulance Service are the first responders, as they are responsible for controlling and containing incidents.

Otherwise, assess the risk of the incident and determine whether it can be controlled onsite either using emergency response equipment (e.g. fire extinguishers, fire hoses, spill kits etc.) or using the services of Veolia 132 955.

Each incident type will have its own response requirements as discussed in the Emergency Response Plan for EarthPower Technologies Sydney, which incorporates the Pollution Incident Response Management Plan, a copy of which is available on site. If possible, use the emergency response equipment onsite and manage the incident.

If the incident does not require an initial combat agency or once the 000 call has been made and the incident cannot be controlled by site personnel or if the incident has the potential to cause harm to humans, property or the environment, site management will contact the following authorities immediately:

- Fire and Rescue NSW: 000
- EPA Environment Line: 131 555
- SafeWork NSW: 13 10 50
- Ministry of Health: via the local Public Health Unit – 9840 3603 after hours 02 9845 5555 (Westmead Hospital) - ask for Public Health Officer on call

In the event of a notifiable incident, the following neighbours will also be contacted by phone or in person, as appropriate under the circumstances:

Business Name	
Concrete Recyclers	8832 7400
USG Boral	9638 0571
SAMI Bitumen Technologies	9638 0150
Veolia Environmental Services	132 955
